Mr. Gann,

After a quick consultation with the team, we are still trying to see if we can accommodate one of the dates/times you sent, most likely Thursday.

However, would next Tuesday, October 22 at 10 am would work for you? Please let me know.

Thanks,

Ana

Hi Ana:

I have a meeting I have to attend tomorrow at that time. Listed below are dates and times later in the week that would work. Joining me on the call will be Steve Scherrer from Lanxess.

- Wednesday, October 16 – 1 p.m. to 5 p.m.
- Thursday, October 17 – 12 p.m. to 3 p.m. AND 4 p.m. to 5 p.m.
- Friday, October 18 – 11 a.m. to 3 p.m.

Subject: ACC comments regarding draft risk evaluation of 1-BP

Mr. Ben Gann,

We are reviewing the comments received regarding the draft risk evaluation of 1-BP, and in your comment you include a series of recommendations for EPA.

We are interested in talking to you about recommendation number 5:

"A condition of use that has not been adequately evaluated by EPA is processing of 1-BP for use as a recyclable reaction solvent. We suggest listing it as a "reaction solvent" under "processing – incorporating into formulation, mixture or reaction product" as described in Table 1-4."

We are trying to figure out how to accommodate this recommendation. We would like to talk to you about what do you mean with "recyclable reaction solvent" and why you think it is not currently cover by the draft risk evaluation. Also, why do you suggest adding the use under "processing – incorporating into formulation, mixture or reaction product" rather than "processing as a reactant."

Next Tuesday, October 15 at 10:30 am would be a good time for our team to talk to you. However, if that date/time doesn't work for you, please let us know when it will be convenient for a call next week.

Thank you for your assistance clarifying the comment,

Ana Corado, D. Env.
